Academic Project:

- Project Title** : E - Ayur.
Duration : 6 months
Environment : J2EE (JSP)

Brief Overview of Project:

E-Ayur is the web portal developed for an Ayurvedic Hospital in Hyderabad which is specialized in the field of ayurvedic. Since its inception, it has been in this field of ayurveda, specializing in various diseases and serving the people in getting cured from their health problems.

The major concept is that the current application can be used by the administrator of the e-ayur.com web site, and the customer (patient) information can be added by the administrator along with his/her complaint/disease. Then the customer can login with his id and password. He can get more information about the diseases and treatment and he can post the queries also.
